# SCANIAZZ

SCANIAZZ - The Band.

Sweden's premier classic jazz band are touring England for the second time. The first visit in 1979 they played at The Adur, Hove. Inspired by the 20's recordings of King Oliver, Clarence Williams et al., the band has a programme of many long forgotten compositions. In 1975, the band made their first appearance at an international jazz festival in San Sebastian receiving good reviews, and went on to consolidate their success at the Breda Jazz Festivals in Holland in 1976 and 1977.

It was at one of these festivals that SCANIAZZ were 'discovered' by the Americans, resulting in a recording contract for the 'Stomp Off' label. Since then, they have toured most of Europe's jazz clubs, and they have also played earlier this year at the New Orleans Jazz Festival.
